

The process for the omnibus motion is as follows:

1. **Presentation of Policy Changes:** The chair will present a comprehensive list of all policy updates and changes included in the new manual.

2. **Pulling Policies for Separate Discussion:** Members may request to “pull” specific policy changes they wish to discuss separately. These policies will be set aside for individual review and are not included in the omnibus vote.

3. **Omnibus Approval:** Once any requested items are pulled for separate consideration, the remaining policy updates in the manual will proceed to a single, omnibus vote. Approval of this motion will enact all updates that were not pulled for separate discussion.

4. **Consideration of Pulled Policies:** Following the omnibus approval, the chair will open the floor to discuss each pulled policy one by one, allowing members to address any remaining questions or concerns through individual motions.
